

## Field Meetings 2018

I hope that you will find outings to your taste from this varied programme. Any suggestions for future outings are always welcomed by the committee. It is hoped that members will share transport, where possible, to ease any parking problems and be prepared to offer lifts to members without cars.

If you require further details about a walk, or in case of bad weather and possible cancellation, please contact the leader of the walk. Please bring suitable refreshment with you! This will be necessary for the walks that start on a morning and it may well be appropriate to take tea on an afternoon walk.

I should like to welcome any prospective members to join some of our outings. I am sure that you will find our members both friendly and helpful. I have found the field trips an excellent way of learning more about the natural history of the areas we visit.

Malcolm Birtle (President)

### Unscheduled Adhoc Events

Please note that, in addition to the scheduled walks included in this programme, our intention is to also have several adhoc events which are best organised at short notice because they are highly dependent on suitable weather conditions. These include moth trapping with Paul Forster, and possibly some bat walks and recording meetings. If you are interested in events such as these, please let either Eric Gendle or Neil Baker have your contact details (an email address if possible) and we will ensure you are kept informed about them as and when they are arranged.
